

Energy Harness® LED High Bay lights are designed to replace traditional high bay lighting from 250W - 600W. With these LED fixtures, no ballast, bulbs, or maintenance is required.

These lights are sure to provide more light than traditional high bay fixtures while using less energy. Great for warehouses, factories, gyms, grocery stores, athletic courts, retail stores and more.

Save on electrical and maintenance costs today by upgrading to EHC LED High Bay lights. Give your fixtures a modern look and upgrade your light output, all while reducing the cost of your energy!

Energy Harness® LED Linear High Bay fixtures are available in a variety of sizes and wattages to meet your lighting needs. The installation is made easy with hanging chains and power through the back or side. These fixtures have even optical light distribution and great heat dissipation which allows for a longer lifespan and requires no maintenance.
