

Energy Harness® LED Magnetic Retrofit Kits are great replacements for fluorescent tube lights. With magnets for easy installation and no maintenance necessary throughout its lifetime, you can reduce your maintenance costs as well as save energy.

Great for 3 and 4 lamp fixtures in schools, offices, hallways, workshops, factories, warehouses, and much more!

Energy Harness® LED Magnetic Retrofit Kits make converting your fluorescent tube light fixtures to LED even easier. With a single, external power supply and the use of magnets to improve the speed of the installation and stability of the lamps, these retrofit kits are a great replacement for converting traditional lighting to LED. With no maintenance necessary and reduced energy usage, these lights provide a unique modern upgrade over traditional bulbs and LED bulbs alike. Contact us to start saving today!

#### Product Replacements:

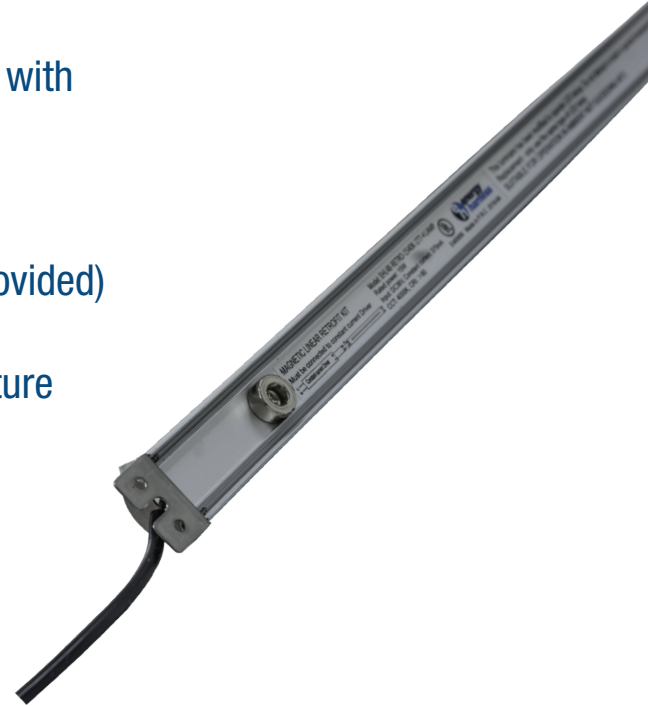

#### Accessories:

-External Power Supply (included)

-Battery Back-up Integrated Linear EHI36-1350K-277-BBU (separate)

- CRI >83
  - Lifespan >50,000hrs
  - Power Factor >.9
  - Total Harmonic Distortion 13.30%
  - Aluminum housing
  - Frosted Lens
  - 0-10V Dimmable
  - Magnetic mounting with screws
  - Ballast Bypass (External Driver provided)
  - Operating Temperature -4°F - 122°F
  - Indoor Use
