

Energy Harness® LED High Bay Pool lights are designed for indirect lighting in pool areas. These energy efficient lights are durable for damp environments and allow both up and down lighting. With using Energy Harness's integrated LED technology the need to change bulbs and ballasts is completely eliminated. Upgrade to a clean modern look today to improve your lighting and start saving energy.

EHC LED Highbay Pool lights are great for replacing any existing lighting in indoor pool areas. With energy savings between 50-75% and no maintenance required through the lifespan of the fixtures, these LED lights are sure to pay for themselves!
