

Energy Harness® LED Sports Light Fixtures are designed to replace traditional high wattage fixtures typically referred to as spot or sports lights. These fixtures are great replacements for converting 1000W or 1500W metal halide bulbs to LED. They are excellent for football fields, baseball fields, softball fields, soccer fields, tennis courts, sports complexes, airports, ports, tower lighting, and much more!

Energy Harness® LED Sports Lights provide a durable, long-lasting modern fixture upgrade from traditional spot and sports lights. With integrated LED technology, the need for changing bulbs and ballasts is completely eliminated. Upgrade your lights today to increase your light output and modernize your facility lighting all while lowering your energy cost!
