

Energy Harness® LED High Bay lights are designed to replace traditional high bay lighting from 250W - 600W. With these LED fixtures, no ballast, bulbs, or maintenance is required.

All EHC High Bay fixtures have an output of over 22,000 lumens. These lights are sure to provide more light than traditional high bay fixtures while using less energy. Great for warehouses, factories, gyms, grocery stores, athletic courts, retail stores and more. Save on electrical and maintenance costs today by upgrading to EHC LED High Bay lights.

Give your fixtures a modern look and upgrade your light output, all while reducing the cost of your energy!

Energy Harness® LED High Bay fixtures are made in America with pride. Multiple bell styles and voltages are available for your project needs. These fixtures have even optical light distribution and great heat dissipation which allows for a longer lifespan and requires no maintenance.

## Specifications

- CRI>80
- Beam angle >140°
- Power Factor >0.9
- IP64 rated
- Aluminum finned housing
- Includes 2' 18AWG power cord
- 0-10V Dimmable
- Lifespan > 50,000hrs
- 100-277VAC or 200-528VAC, 50/60Hz
- Working Temp:  
-22°F -140°F
- Meanwell internal driver
- Indoor use only

LED Traditional High Bay		150W
EHC Part Number	EHF-HB-15050K-xxxV	
Replacement	400-500W	
Wattage	150W	
Lumens	22500m	
Efficacy	135lm/w	
Size (L" x W" x H")	24" x 17.3" x 3.5"	
Color (CCT)	5000K	
Voltage (AC)	100-277VAC or 200-528VAC	
Bell	Clear acrylic (aluminum upon request)
