

Energy Harness® LED Tri-Proof lights are designed to replace traditional vapor proof fixtures. These LED light fixtures are a great replacement for traditional walk-in cooler and freezer lighting and outdoor lighting. With easy installation and no maintenance, you can reduce your costs as well as save energy.

Great for ceilings, canopies, parking garages, pavilions, freezers, coolers, and more...!

Because EHC LED Tri-Proof lighting fixtures are water resistant, dust proof, and pressure proof and can be connected together up to 600W, these lights are perfect for many applications from indoors to outdoors. With zero maintenance needed, these lights will prove themselves to be long lasting and durable. Upgrade your fixtures to EHC LED Tri-Proof lights today!
