

Energy Harness® LED linear lighting is designed to replace traditional fluorescent T5, T8, and T12 lighting with energy saving and long lasting LED technology. Keep your fixtures and upgrade only your lights. These lights do not use a ballast and are environmentally friendly (no mercury). With energy savings between 50-65% and no maintenance required through the lifespan of the bulb, these LED lights are sure to pay for themselves!

Energy Harness® LED T8 U-bend tubes are intended to upgrade existing T8 and T12 fluorescent lamps. With easy installation, reduced energy usage, and instant power on these lights will save you time and energy cost. Great for offices, common areas, warehouses, or anywhere fluorescent lights are present.
