

Energy Harness® LED Dusk to Dawn Lights, also known as barn lights or security lights, are great replacements for traditional security lighting. They provide clean, bright light exactly where needed, do not require the use of ballasts, and are fitted with a twist-lock photocell for dusk-to-dawn applications.

This luminaire is ideal for areas where general or security lighting is needed. Great for exterior use on warehouses, barns, and commercial buildings. Also great for boat launches, docks, sheds, etc...

These lights can be mounted directly onto existing bull horns or wall mount brackets. With an easy installation and a dusk-to-dawn photocell, these lights are perfect for upgrading existing security lighting! Contact us today to increase the amount of your light and decrease your energy usage!
